

# Even News Blackout Can't Hide Nazis' Dissolution

Analysis of the News by Mackenzie

Editorial Comment Written Today and Moved by Telephone

By DEWITT MACKENZIE

Associated Press War Analyst

Since the news blackout on the German front has been in effect, the whole world has been waiting for a word from the German high command. The blackout has been so complete that not a word has been heard from the German high command since the beginning of the blackout. The blackout has been so complete that not a word has been heard from the German high command since the beginning of the blackout.

## Holdouts in Majors as Season Nears

By JOE REICHER

New York, March 29.—(AP)—With the season now less than three weeks off, several club owners still are faced with holdout problems.

What is probably the biggest holdout of them all is Fred (Dixie) Walker of the Brooklyn Dodgers. National League batting king, who is commanding a reported \$22,500, an increase of approximately \$2,500 over what he was paid last year.

## Used Clothing

(Continued From Page One)

their clothing contribution take their clothing contribution to some school. The Hope Fire Department is now in the process of collecting clothing and, if more convenient, it will be sent to the fire station. Clothing brought in from "normal collection centers" should be delivered directly to the fire station.

## Easter Play at High School Friday

"By Their Faith" a four act drama will be presented in the High School auditorium at 1:15 Friday, March 30, by the Library club under the direction of Mrs. Frank J. Anderson.

## Court Appoints an Attorney to Represent Hall

Little Rock, March 29.—(AP)—Circuit Judge Gus Falk has appointed attorney for James W. Hall, who has been charged with first degree murder in the death of his wife, Mrs. Mary E. Hall, who was shot in the back of the head by a bullet fired from a .38 Smith & Wesson revolver.

## Deaths BRIGHT DIAMONDS

by Lionel Mosher

THE STORY: Nick stops to take a look at the diamond in the window of the jewelry store. The diamond is a brilliant one, and Nick is sure it is a real one. He is sure it is a real one.

Through the dining-room door he saw the diamond in the window of the jewelry store. The diamond is a brilliant one, and Nick is sure it is a real one. He is sure it is a real one.

"I don't want to be noisy," I said, "but what if I saw the diamond in the window of the jewelry store. The diamond is a brilliant one, and Nick is sure it is a real one. He is sure it is a real one."

"I don't want to be noisy," I said, "but what if I saw the diamond in the window of the jewelry store. The diamond is a brilliant one, and Nick is sure it is a real one. He is sure it is a real one."

"I don't want to be noisy," I said, "but what if I saw the diamond in the window of the jewelry store. The diamond is a brilliant one, and Nick is sure it is a real one. He is sure it is a real one."

"I don't want to be noisy," I said, "but what if I saw the diamond in the window of the jewelry store. The diamond is a brilliant one, and Nick is sure it is a real one. He is sure it is a real one."

"I don't want to be noisy," I said, "but what if I saw the diamond in the window of the jewelry store. The diamond is a brilliant one, and Nick is sure it is a real one. He is sure it is a real one."

"I don't want to be noisy," I said, "but what if I saw the diamond in the window of the jewelry store. The diamond is a brilliant one, and Nick is sure it is a real one. He is sure it is a real one."

"I don't want to be noisy," I said, "but what if I saw the diamond in the window of the jewelry store. The diamond is a brilliant one, and Nick is sure it is a real one. He is sure it is a real one."

"I don't want to be noisy," I said, "but what if I saw the diamond in the window of the jewelry store. The diamond is a brilliant one, and Nick is sure it is a real one. He is sure it is a real one."

"I don't want to be noisy," I said, "but what if I saw the diamond in the window of the jewelry store. The diamond is a brilliant one, and Nick is sure it is a real one. He is sure it is a real one."

"I don't want to be noisy," I said, "but what if I saw the diamond in the window of the jewelry store. The diamond is a brilliant one, and Nick is sure it is a real one. He is sure it is a real one."

"I don't want to be noisy," I said, "but what if I saw the diamond in the window of the jewelry store. The diamond is a brilliant one, and Nick is sure it is a real one. He is sure it is a real one."

"I don't want to be noisy," I said, "but what if I saw the diamond in the window of the jewelry store. The diamond is a brilliant one, and Nick is sure it is a real one. He is sure it is a real one."

"I don't want to be noisy," I said, "but what if I saw the diamond in the window of the jewelry store. The diamond is a brilliant one, and Nick is sure it is a real one. He is sure it is a real one."

"I don't want to be noisy," I said, "but what if I saw the diamond in the window of the jewelry store. The diamond is a brilliant one, and Nick is sure it is a real one. He is sure it is a real one."

# What can you Spare that they can Wear?

**UNITED NATIONAL CLOTHING COLLECTION**  
for  
**Overseas War Relief**  
HENRY J. KAISER  
National Chairman  
**APRIL 1 to 30**

Across the barren wastes of war-torn countries, wander multitudes of dazed and destitute people. Their appalling number, in Europe alone, is 125 million, of which more than 30 million are children. They are living in the ruins of their homes. They are working in their ravaged fields. They are kept alive more by courage than by food; warmed more by hope than by clothing... working and waiting—even as we—for tomorrow.

These men, women, and children—innocent victims of Nazi oppression—have been robbed of all but life itself. During five long horror-filled years of war, the clothes on their backs have worn to pitiful shreds and rags. Production of new clothing has been impossible—so their need will continue long after the end of hostilities.

#### Many Thousands Have Died

So scarce and scanty have their garments become that, during winter months, deaths from exposure have equalled—and in some areas even exceeded—deaths due to starvation and malnutrition.

The clothing these people so desperately need is available.

Some of it now reposes in your own closet or attic! The rest of it lies, forgotten, in millions of other American homes.

#### 150 Million Pounds Needed

Look over your family's wardrobe—now. Pick out every garment you can possibly spare—serviceable used summer as well as winter clothing and shoes—men's, women's, children's, infants'. Every American home must give its share if the goal of 150 million pounds is to be reached.

Remember, these people of war-torn countries will one day—soon—be our proud partners in the building of a peaceful world. Will you help them—now?

## 3 Mess Halls Feed Camden's Workers in Best Approved Navy Manner, Reporter Finds

By PAT WALSH

Camden, March 28 — (U)—For the man who likes to eat and eat well including lots of sweets, the mess hall at the Camden Naval Ordnance Plant is a place to go. It is a place to go through one of the three mess halls.

Because food for the construction workers is bought by the Navy, items that are scarce on the tables of the average resident of Arkansas or even the wealthy is common place to the workers who obtain three meals a day and a place to sleep for the total sum of \$1 a day in the plant area.

Navymen making a tour of the plant this week visited the bakery in the Number One mess hall which is turning out hundreds of pies, cookies and cakes to fill the workers' stomachs. The bakery is a place to go for a slice of pie or a whole cake.

According to W. C. Page, personnel manager for Winston, Haglin, Missouri Valley and Soltis, construction company, the feeding of the men and providing them with a dry and clean place to sleep is expected only by their desire to complete the entire plant as soon as possible.

"Give a man good food, a dry place to sleep and some means of recreation," Page said, "and he'll be a contented worker."

Workers are given sleeping quarters in the mess halls. In most cases three of the bunks are joined together and about 30 men are assigned bed space in them and still have ample room to move about in and get the benefit of any air that may be circulating on the warm spring nights.

In most cases men who work the same hours are quartered together thus allowing all to sleep about the same hours, which would not be the case if the night, graveyard and day shifts were all mixed in the same bunks.

Negroes employed on the job are fed in a special section of the mess hall and have their own sleeping quarters. However Page and Laval both pointed out that they are given the same food as the white employees.

Page in showing visitors through the plant always points out with pride to the progress that workers have made in completing the recreation hall in the center of the area, where all workers gather nightly after work hours to see wrestling and boxing matches between men employed on the project or to listen to any one of the three bands and orchestras that have been organized among the workers.

Dances with music provided by workers are held weekly. With the coming of baseball weather Page is arranging for several teams to be composed of workers who will play a schedule of games for the benefit of the others.

A worker stopped as he left the mess hall by the newsmen said, "Well the work down here is not easy, but it is a part of the war effort and sleeping in a dry bed in the hutment is much better than a fox-hole, that our soldiers and Marines are using in the Pacific Islands."

The hutment is much better than a fox-hole, that our soldiers and Marines are using in the Pacific Islands.

Profitable production can be sustained through proper feeding. Hundreds of Southern dairymen are maintaining herd production the year around through a balanced feeding program with

## This Curious World

By William Ferguson

IF THE MOON'S DIAMETER WAS LESS THAN IT IS, A TOTAL ECLIPSE OF THE SUN COULD NOT OCCUR.

THEY ARE NAMED FOR GEORGE GUESS, CHEROKEE INDIAN CHIEFTAIN, BETTER KNOWN AS SEQUOIA, AND INVENTOR OF THE CHEROKEE ALPHABET.

**4 New Wells Reported in Mississippi**

Laurel, Miss., March 28 — (U)—Producten announced here that four new wells have been added in the Laurel and Heidelberg fields near Laurel, and that a new oil field has been staked in Jones county.

The 44th producer in the Laurel field, drilled for Magnolia petroleum company by Crow drilling company, is the G. S. Stanley No. 2, in Sec. 18-24-N-12W. The well was drilled to a depth of 4,000 feet and a pumping unit will be installed. It is expected to make 100 barrels, the allowable for the field.

New producers in the Heidelberg field are credited one to Kingwood company and two to the Gulf Refining Company, bringing the number to 73 for the field.

Kingwood drilled the No. 1 Heidelberg community well, in Sec. 32-1N-13E, to a total depth of 4,000 feet, and tested for several days before completion. A pumping unit will be installed.

Gulf Refining company's No. 1 Henry Thigpen in Sec. 31-1N-13E, is flowing through a 1-2 inch choke at the rate of 70 barrels per day of 24.3 gravity oil. The well was drilled by Ray and Wood to 4,000 feet and is being tested for several days before completion. A pumping unit will be installed.

Other tests in the county being drilled for Gulf show the following results:

On the D. J. Flynn, No. 1, in sec. 36-24-N-12W, west of Laurel, J. Simmons, contractor for Gulf, coring from 6,000-30 ft and from 6,000-30 ft with no show of oil or gas. The hole is being reamed at 6,000 feet preparing to drill to 8,000 feet.

In the SOS area on the Gulf W. A. Valentine No. 1, in Sec. 49-1N-12W, Danziger is drilling at 3,531 feet.

## FDR Urges Passage of Service Act

Washington, March 28 — (U)—President Roosevelt today urged the Senate to pass the House-approved compromise manpower bill. Its failure to do so, he said, would hamper "successful conduct of the war."

The president said in a letter to Chairman E. D. Thomas, D. Utah, of the Senate Military Affairs Committee that the manpower bill would be a "great help" in the war effort.

In an apparent allusion to what might be expected to happen after the defeat of Germany, Mr. Roosevelt added:

"In the days ahead of us there will be great temptation for workers to leave war plants."

Peppermint is a herbaceous perennial plant.

Plains Baptist Church, Surry County, N. C.

**Decrease Shown in Venereal Disease Cases for State**

Little Rock, March 28 — (U)—Although there were increases in the number of cases of venereal disease in the state during the first three months of the year, the decrease in the number of cases of syphilis and gonorrhea was significant.

**Many Spanish Tongues Snarl Film-Makers**

Bonita — (U)—The problem of finding a typical Spanish accent is posing a new problem for U. S. movie makers, now that they have solved the old problem of making talking movies more intelligible to Latin-American audiences.

The first U. S. film with Spanish dialogue dubbed in has just been shown here and newspapers commented on the strange Argentine accent of one of the players. Previously, subtitles have been in Spanish, with the spoken dialogue in English.

The Spanish of Spain and of Latin America is as different as the English of England and the United States. Furthermore, there is much difference between the Spanish of Argentina and the Spanish of Mexico as there is between cockney English and Oxford English. Aside from the difference of accent, the same word can mean different things in different Latin-American countries.

Even more complicated, but less talked about, is the fact that a word can be very improper, indeed, in one country and half a continent away it will be perfectly proper and in common use.

**Siamese Twins' Descendant Now Doing Work**

Newport News, Va. — (U)—One of the many descendants of the famous Siamese twins, Woon Eng Bunker, is now doing work in the United States.

Named for one of the twins born in the Kingdom of Siam between the Burmese and Chinese empires, Bunker is a native of Mt. Airy, N. C., where the Siamese twins lived after retirement from the show business. He was formerly employed at the Norfolk Navy yard in Portsmouth.

Eng and Chan, the twins brought to this country in 1830 by P. T. Barnum, took the name of their manager, Bunker, and married sisters, Adelaide and Sallie Yates, of Wilkes County, N. C. The brothers are buried in the old church cemetery near White

Gray sand and shale. On the Gulf-Hamilton at B. F. Rowell et al No. 2, in sec. 26-1N-13E, Ray and Wood, contractors, are coring ahead at 5,118 feet in gray sand. A drill stem test was made from 5,062-4100 feet using a 3-8 inch choke on the bottom and a 1-4 inch on top. The test tool was open 27 minutes, recovering 450 feet of mud, 360 feet of heavy oil and 720 feet of black water.

**U.S. Cigarettes Are Plentiful—Only in Ecuador**

Quito, Ecuador — (U)—Saying the country had plenty of American cigarettes, Ecuador announced government liquor stores would sell them at a fixed price of 40 cents a pack.

Ads in capital newspapers said apparent shortages were caused by dollar hoarding and ordered retailers to register their stocks with the government. The director of the government liquor monopoly said 100,000 packs had just arrived and another 300,000 were due before the end of April. The government hopes sales through government stores will keep prices in private shops down.

**WHAT DESTROYS AMERICA'S TIMBER?**

**But undisputed champion of damage by fire to our timber is Home Americanus—people like you and me. For every year, about, 100,000,000 cubic feet of American citizens cause 90% of our 210,000 forest fires.**

**Lightning starts 10% of these fires—fires that also kill wild life, cripple watersheds, and drain 1 million man-days of labor from factories and farms each year.**

**Each year 210,000 forest fires destroy more than 3 billion board feet of America's timber—a critical material during war, a vital one during peacetime reconstruction.**

**Of course, no person who starts a fire ever "means to". Just as no one ever means to shoot an "unloaded" gun. He becomes temporarily forgetful, instead, temporarily "blind" to reason.**

**It is important that YOU remember these rules**

**1. CRUSH OUT your cigar, your cigarette, your pipe stubs.**

**2. BREAK your campfire, then air and add more water before you leave.**

**3. DROWN your campfire, then air and add more water before you leave.**

**4. ASK ABOUT THE LAW—before you light a fire. Know the law and follow the rules.**

**5. ALWAYS BE CAREFUL. An extra minute of precaution may save vital watersheds and a hundred years of forest growth.**

**THIS IS AN EMERGENCY!**

**Something's got to be done right now about brush and woods and forest fires in America. We face enormous losses—in watershed, timber, water power and manpower—unless you who might start such fires are extra careful. So please read these rules. Please memorize them. Remember that this year, with so many men away, there may be GREATER DANGER THAN EVER to America's woodlands and forests.**

## 3 Mess Halls Feed Camden's Workers in Best Approved Navy Manner, Reporter Finds

By PAT WALSH

Camden, March 28 — (U)—For the man who likes to eat and eat well including lots of sweets, the mess halls at the Camden Naval Ordnance Plant are a place to go. At least, that is the opinion of one of the three mess halls.

Because food for the construction workers is bought by the Navy, items that are scarce on the tables of the average resident of Arkansas or even the wealthy is common place to the workers who obtain three meals a day and a place to sleep for the total sum of \$1 a day in the plant area.

Navymen making a tour of the plant this week visited the bakery in the Number One mess hall which is turning out hundreds of pies, cookies and cakes to fill the workers' stomachs. The bakery is a three-story building with a conveyor belt system for moving the baked goods to the mess halls.

According to W. C. Page, personnel manager for Winston, Haglin, Missouri Valley and Sullit, construction company, the feeding of the men and providing them with a dry and clean place to sleep is expected only by their desire to complete the entire plant as soon as possible.

"Give a man good food, a dry place to sleep and some means of recreation," Page said, "and he'll be a contented worker."

Workers are given sleeping quarters in the mess halls. In most cases three of the bunks are joined together and about 30 men are assigned bed space in them and still have ample room to move about in and get the benefit of any air that may be circulating on the warm spring nights.

In most cases men who work the same hours are quartered together thus allowing all to sleep about the same hours, which would not be the case if the night, graveyard and day shifts were all mixed in the same bunks.

Negroes employed on the job are fed in a special section of the mess hall and have their own sleeping quarters. However, Page and Laval both pointed out that they are given the same food as the white employees.

Page in showing visitors through the plant always points out with pride to the progress that workers have made in completing the recreation hall in the center of the area, where all workers gather nightly after work hours to see wrestling and boxing matches between men employed on the project.

With the coming of baseball weather Page is arranging for several teams to be composed of workers who will play a schedule of games for the benefit of the others.

A worker stopped at the mess hall by the newsmen said, "Well the work down here is not easy, but it is a part of the war effort and sleeping in a dry bed in the hutment is much better than a fox-hole, that our soldiers and Marines are using in the Pacific Islands."

The hutment is much better than a fox-hole, that our soldiers and Marines are using in the Pacific Islands.

Profitable production can be sustained through proper feeding. Hundreds of Southern dairymen are maintaining herd production the year around through a balanced feeding program with

## FDR Urges Passage of Service Act

Washington, March 28 — (U)—President Roosevelt today urged the Senate to pass the House-approved compromise manpower bill.

His failure to do so, he said, would hamper "successful conduct of the war."

The president said in a letter to Chairman E. D. Thomas, D. Utah, of the Senate Military Affairs Committee that the manpower bill, which would give the government authority to draft men for the war effort, is a "vital step."

In an apparent allusion to what might be expected to happen after the defeat of Germany, Mr. Roosevelt added:

"In the days ahead of us there will be great temptation for workers to leave war plants."

## U.S. Cigarettes Are Plentiful—Only in Ecuador

Quito, Ecuador — (U)—Saying the country had plenty of American cigarettes, Ecuador announced today that it would allow the sale of them at a fixed price of 40 cents a pack.

Ads in capital newspapers said apparent shortages were caused by hoarding and ordered retailers to register their stocks with the government. The director of the government liquor monopoly said 100,000 packs had just arrived and another 300,000 were due before the end of April. The government hopes sales through government stores will keep prices in private shops down.

In the days ahead of us there will be great temptation for workers to leave war plants."

Lightning starts 10% of these fires—fires that also kill wild life, cripple watersheds, and drain 1 million man-days of labor from factories and farms each year.

Each year 210,000 forest fires destroy more than 3 billion board feet of America's timber—a critical material during war, a vital one during peacetime reconstruction.

Of course, no person who starts a fire ever means to. Just as no one ever means to shoot an "unloaded" gun. He becomes temporarily forgetful, instead, temporarily "blind" to reason.

It is important that YOU remember these rules:

1. CRUSH OUT your cigar, your cigarette, your pipe.
2. BREAK your campfire, then air and add more water before you leave.
3. DROWN your campfire, then air and add more water before you leave.
4. ASK ABOUT THE LAW—a permit is required to burn, and a permit is required to burn.
5. ALWAYS BE CAREFUL. An extra minute of precaution may save vital watersheds and a hundred years of forest growth.

## Prevent Forest Fires GREATER DANGER THAN EVER!
